

# THUNDERBOTS

FRC 980

## 2020 SUMMARY BUSINESS PLAN

# MISSION STATEMENT

“To educate and inspire high school students to become the next generation of science and technology leaders by building a competitive robot through the guidance of professional mentors, corporate sponsors, and parents in alignment with FIRST core values.”

# TEAM HISTORY & GROWTH

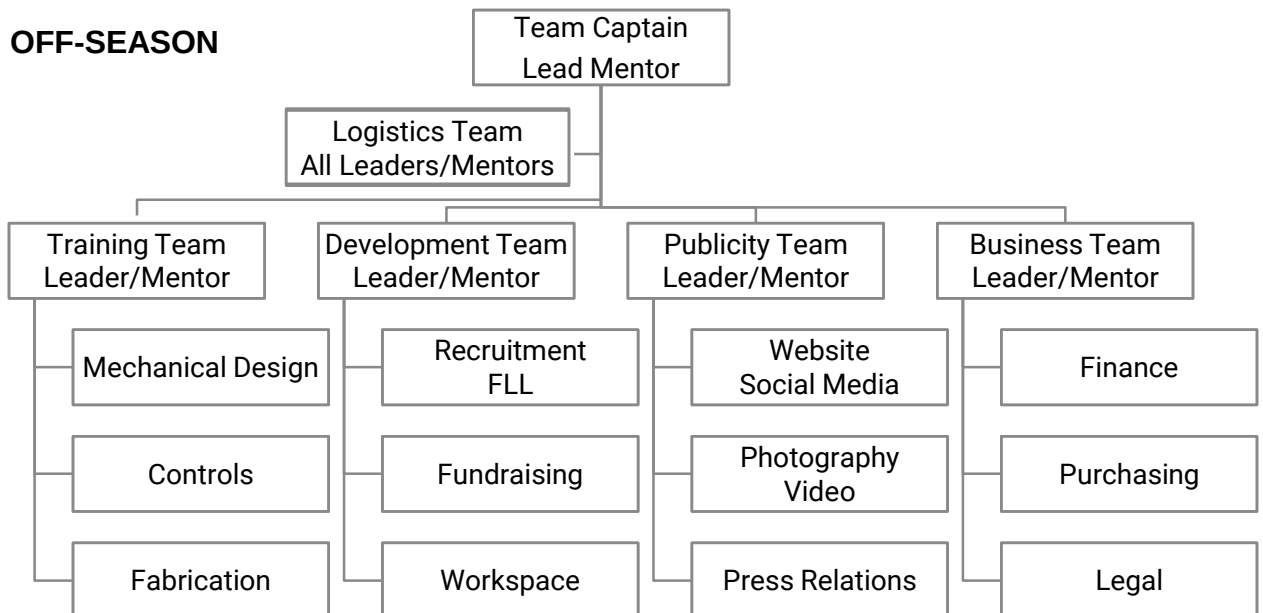

Team 980 is a community team, founded in September 2001 in La Canada-Flintridge, CA, with 10 students and 3 mentors. As of the 2020 build season we have approximately 18 students and 9 core mentors. Team 980 draws our members from the entire region - Burbank, Glendale, and North LA County - an area of over 2 million people. Our students come from over a dozen schools, from Santa Monica to Alta Dena. We are grateful to Walt Disney Imagineering for providing us with our current build space in one of their facilities.

As a community team, we are constantly expanding our recruitment efforts by attending Club Rush events at local high schools, holding Robotics Open Houses, and mentoring several FLL teams whose members are our future!

# ORGANIZATIONAL STRUCTURE

Team 980 has three organizational charts for the three periods of the year: Build Season, Competition Season and Off-Season. The other charts are included as an appendix.

## OFF-SEASON

# RISK ANALYSIS

Since 2015, Team 980 has used a Strengths, Weaknesses, Opportunities, and Threats (SWOT) Analysis to identify risks to our team as well as the strengths we use to overcome our challenges and expand our successful program. Our SWOT Analysis for 2020 follows:

## TEAM 980 2020 SWOT ANALYSIS

Our strategy is **W-O**, which means overcoming our weaknesses by realizing our opportunities.

	HELPFUL	HARMFUL
INTERNAL FACTORS	<p><b>STRENGTHS</b></p> <ul style="list-style-type: none"> <li>• Mentor expertise and dedication</li> <li>• Major sponsors (JPL, WDI)</li> <li>• Adaptability</li> <li>• Diversity - students from different schools and backgrounds</li> <li>• Driven strongly by goals</li> <li>• Leadership</li> <li>• Initiative</li> </ul>	<p><b>WEAKNESSES</b></p> <ul style="list-style-type: none"> <li>• Internal communication</li> <li>• Attendance</li> <li>• Time management</li> <li>• Focus</li> <li>• Student fundraising / sponsor recruitment</li> <li>• Inconsistent ranking at competitions</li> </ul>
EXTERNAL FACTORS	<p><b>OPPORTUNITIES</b></p> <ul style="list-style-type: none"> <li>• The only FRC team in Burbank/Glendale area</li> <li>• Many schools to recruit from</li> <li>• Many companies to fundraise from</li> <li>• Many local organizations to share community events</li> <li>• Many FIRST teams to contact for inter-team activities</li> <li>• Training and education available</li> <li>• Competitive across range of available awards</li> <li>• Opportunities to mentor new FLL and JrFLL teams</li> </ul>	<p><b>THREATS</b></p> <ul style="list-style-type: none"> <li>• Losing students to graduation</li> <li>• Losing our build space</li> <li>• Losing sponsors</li> <li>• Losing mentors</li> <li>• Other competitive teams!</li> </ul>

# MARKETING

Over the past several years, Team 980 has evolved from a solid engineering team to a well-rounded FRC team, culminating in our Regional Chairman's award in 2018. In parallel, we have honed our message, bringing in consistency across our promotional materials and developing a clear focus for our outreach events. From our build site on the Burbank-Glendale border, we are able to influence and inspire across our footprint in the San Fernando Valley. We call this branding and marketing initiative "Thunder Valley."

We run an offseason calendar of community outreach events: the LEGO Robo-Camp Program we host in partnership with the Burbank Public Library, the ABC7 & Southern California Firefighters Spark of Love Toy Drive, and advocacy and demonstrations through Open Houses in front of civic and government entities like the Burbank City Council.

Part of the mission of Thunder Valley is to support FIRST across all four programs. Additionally, we support LA Robotics by participating and providing volunteers for Fall Classic, Maker Faire, and pre-bag scrimmage events. We support FLL by mentoring the first FLL teams in Burbank Unified School District, and volunteering at qualifying and regional tournaments in Los Angeles. Our mentors are key volunteers at regional FRC events and at Championships.

# FINANCIALS

Team 980's financial statements for the 2019 season (actual) and 2020 season (projected) are included as an appendix.

Our income includes grants from by NASA/JPL, Walt Disney Imagineering, Boeing, and Raytheon. We are also utilizing the summary business plan and the FIRST sponsor packet template to recruit additional sponsors. We use Piggybackr for crowdsourced fundraising. Each student creates their own web page describing their motivation for participating in FIRST, then invites family and friends via email to visit their page and help them reach their fundraising goals. We have enrolled in several community rewards programs, including Ralphs/Food4Less, eScrip, Benefit-Mobile and AmazonSmile.

Team 980's expenses are relatively consistent. We register for two regional competitions and a few off-season events (scrimmages/workshops). Other expenses include robot construction and marketing/outreach. Our basis-of-estimate for parts, materials and supplies are based on 12+ years of robot building experience. Our mechanical/fabrication mentors do "make-buy" decisions based on their own professional experience.

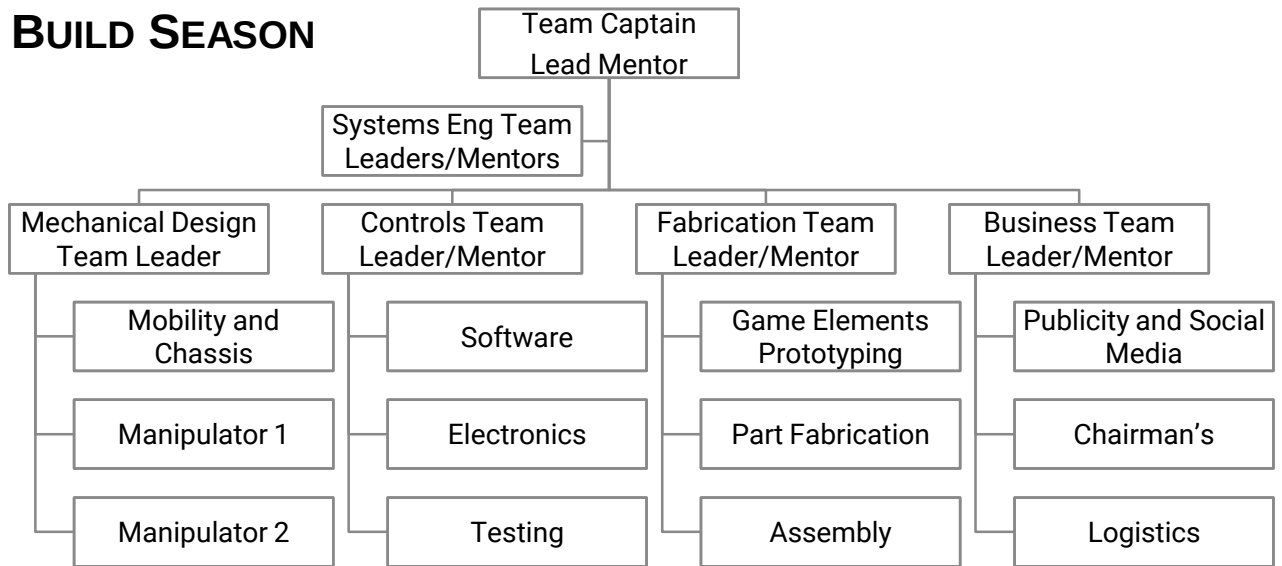

Team 980 has a contingency plan for raising funds to attend Championship. We are looking to create a reserve and recruit special sponsors who will commit the registration fee. Our students raise their own travel/lodging funds to participate in Championship.

Team 980 is a 501(c)(3) corporation, registered with the CA Registry of Charitable Trusts and a Silver member of GuideStar information service for nonprofits.

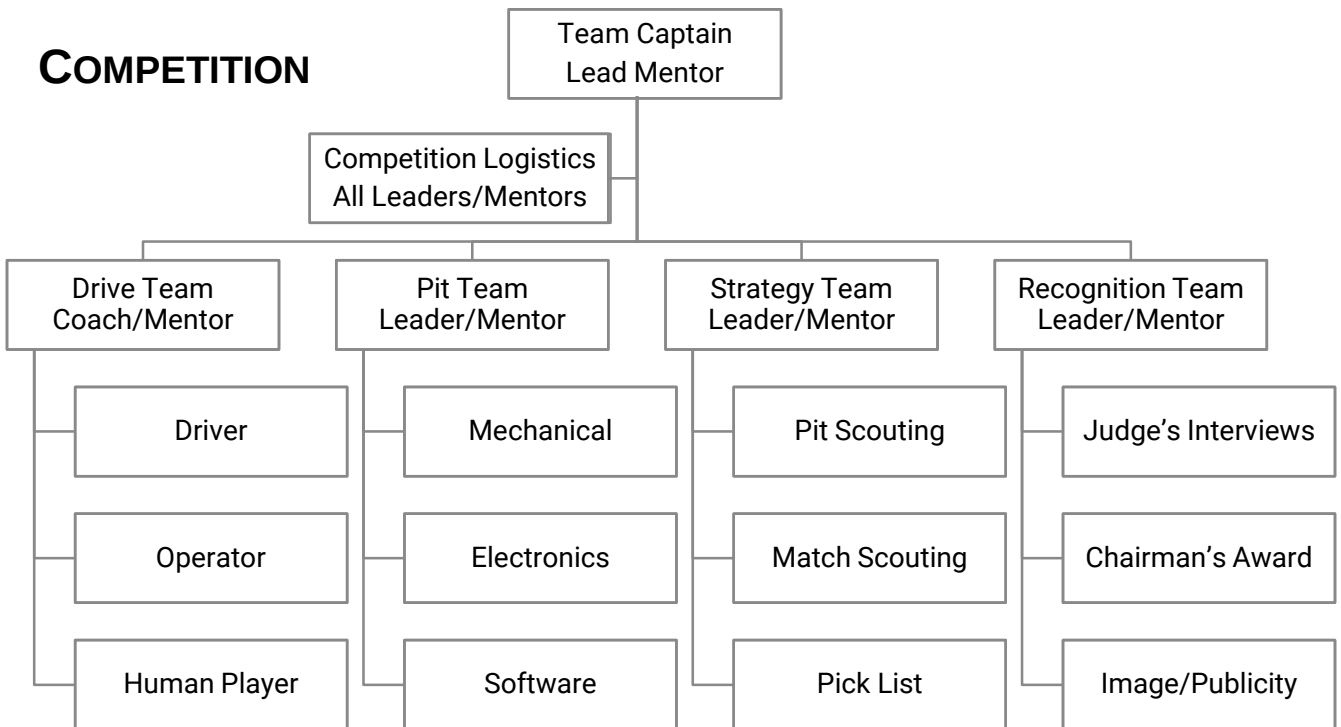

# APPENDIX A: ADDITIONAL ORGANIZATIONAL CHARTS

## BUILD SEASON

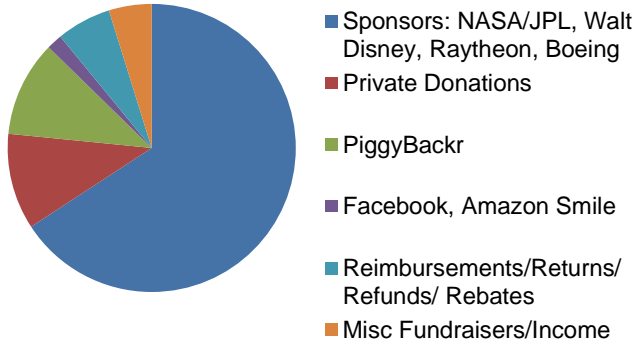

## COMPETITION

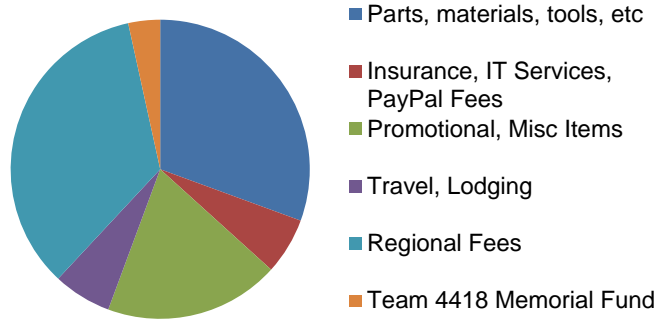

# APPENDIX B: FINANCIAL STATEMENTS

2019 SEASON-ACTUAL INCOME:  
\$33,438.24

2019 SEASON - ACTUAL EXPENSES:  
\$28,474.90

2020 SEASON-PROJECTED INCOME:  
\$35,000

2020 SEASON-PROJECTED EXPENSES: \$30,000

# APPENDIX C: BALANCED SCORECARD

PERSPECTIVE	OBJECTIVES	INDICATORS	GOALS			
			Dec-19	Dec-20	Dec-21	Dec-22
Mission	Inspire a growing number of high school students	Number of students participating throughout the year	60	60	65	70
	Educate HS students in STEM	Average number of training hours in STEM per year x number of registered members (220 hours per year per student)	7700 hours received	9900 hours received	11000 hours received	12100 hours received
Customer	Growing number of members	Number of registered members	35	40	45	50
	Maintain mentors engagement	Number of registered mentors	14	15	16	17
	Be an effective team	Make it into eliminations in at least one regional tournament	yes	yes	yes	yes
		Be awarded at least one individual or team award	yes	yes	yes	yes
	Be active in Inter-team cooperation	Number of teams that we support or partner to execute an activity	25	30	35	45
	Promote FIRST mission	Number of people who received information about FIRST	35,000 people	40,000 people	45,000 people	50,000 people
Be active in community service	Number of community event attended as a team	14	16	18	20	
Processes	Recruiting and induction	Number of students recruited in year	25	27	30	33
		Number of recruiting events	8	9	10	11
		Percentage of student retention	95%	95%	95%	95%
	Marketing process	Number of press mentions of Team 980	7	8	9	10
	Effective design	Simple and effective designs to meet our game objectives	100%	100%	100%	100%
		Number of students using CAD to contribute to the robot design	6	7	8	9
	Organization	% of team utilizing organizational tools	95%	100%	100%	100%
	Solid fabrication	Competition robot complete	2 weeks before bag day	intime for preseason scrimmage matches	1 weeks before scrimmage	2 weeks before scrimmage
		Build efective prototypes on time	1 weeks before bag day	by build week 5	by build week 4.5	by build week 4
	Effective controls	Student contribution to the source code	100%	100%	100%	100%
Student contribution to the control design		100%	100%	100%	100%	
Controls features meet robot design objectives		100%	100%	100%	100%	
Personal Growth	Personal development	Percentage of graduating students who go on to higher education	100%	100%	100%	100%
	Commitment	Attendance	95% of students with 80% of attendance, no student with less than 50%	95% of students with 80% of attendance, no student with less than 50%	95% of students with 80% of attendance, no student with less than 50%	95% of students with 80% of attendance, no student with less than 50%
	Leadership and team work	Number of hours for leadership and team work training	10	11	12	13
Financial	Increase partnership with sponsors	Updates sent within the year	4	4	4	4
	Get new sponsors	Number of potential new sponsor meetings	13	14	15	16
		Number of new sponsors secured	4	5	6	7
	Increase Student Fundraising	Amount of money raised by students	\$12,500	\$15,000	\$17,500	\$20,000
